My love for art began at a very young age, but it wasn't until the last few years when I started to express myself through art. I'm a self taught abstract artist living between Italy and Argentina. Passionate about creating unique art using mainly Acrylic colors and mixed media. After encounter challenges due to the pandemic situation, my goal at the moment is to show to the world my artwork through collective expositions and social media. I had the pleasure to expose my work in Italy and other European countries.

"To be an artist is to believe in life" (Henry Moore)

Making art makes me happy. It's a beautiful form of meditation, escape from reality and in a way-creating my own reality.

When I paint, I open the secret doors to my subconscious and bring up all the emotions, feeling, dreams and much more what is inside my soul.

I like to mix it all in the imaginary pot of creativity and bring it to your plate as a recipe of joy, dreams and enjoyment of life.

My goal is to spread endless love and joy around the world through my art, make people happy and make this world a bit more positive and colorful place.

We all need it :)

My goals and dreams are to be a trauma and neuro surgeon. Currently a Paramedic and working towards going to med school. I have 3 kids, and did it at a young age because I thought cancer would get in the way and destroy my dream of bearing children. Here I am being a model as well as a first responder.

Inspire Photography

I am Monica, a Bangladeshi born artist living in the South of Sweden. Painting is my life and passion since I was a little in good or bad times. Art frees my soul from worries and makes me feel happy and at the same time vulnerable. I express my inner feelings with colour and form. I also did sculptures before, but due to lack of space now I paint the most, I often use oil, acrylic and watercolour. My art carrier started with surrealist art, but for the abstract, her love became stronger. Nature, human, animal and soul are reflected in her art. She is in love with both abstract and figurative. Therefore, my paintings are not completely abstract or figurative. It is a mixture of both. I do often scribble and they become new ideas and later a painting. Nature is a great force for me, especially the sea and wood. Nature's beautiful colours, shapes and sounds inspire me. I like the unspoiled nature. That beautiful chaos I like to transform into the image and poetry. Art is as important for me as oxygen. It keeps me alive among all disasters and negativities.

I dream of living in Los Angeles and being the greatest rock star and filmmaker of the 21st century.

My goal is to make high quality, sustainable music and films.

My greatest achievement is that I never give up and that I work on myself and my skills every day.

The biggest challenge is to find the right musicians for my band and to settle down to the USA.
