My wife and I have worked the last few years as a model/photographer duo producing images based on fantasy/science fiction themes or on inspiration we have found as we have traveled along the east coast.

In collaboration we have created these images amongst many drawing on our talents. Audrey is a writer/multimedia artist and model. Richard is a former drama teacher with experience in photography and writing.

We have been married for over 17 years and have found creating these images has allowed us to keep the creative dynamic that brought us together all those years ago alive and well. Traveling together and exploring our home state of Connecticut, we have found the settings both in nature and in urban/suburban areas, that give us the backdrop to set our scenes.

Hello I'm Elena Shimko. I started drawing about 1 Lyear ago and I feel like I'm the happiest person in the world because I'm doing what I really love. It was not an easy decision for me as I had to quit my daily job to make my dream come true - became an artist. There were many fears at first, but after my paintings started selling I became more confident.

It inspires me a lot and makes me think that I should continue. Also I participate in different art challenges and that way I learn, meet new artists and won prizes. My next dream is to arrange my own art excibition. I think it's really matter to do what your heart tells and continue to improve in whatever you do.

Dreams are to make people smile. I am an explorer like Dora, but I have the mature audience. I am apart of the worlds most dangerous stunt group P.O.R and P.O.R wrestler Pool Kardashian. I've always made an attempt in something I wanted to be growing up and I thought my path was music for a decade, until today I still don't know what I want to do for my career. Wrestling in a backyard evolved to something more making it

where I've traveled a lot not due to music events, but wrestling. I love to travel, but when you buy a brand new car off the lot and a year later see the mileage is over 100,000...I love traveling. I've been tattooed since 2010 and I've always wanted to see if I could ever model for any type of magazine, or photo shoots. I feel I should be shown off.

About Jenny...

Jenny Z. Montiel was born in El Salvador in 1974. After leaving war torn El Salvador in 1982 with her parents she grew up in sunny California. Always a rebel without a cause Jenny left her home at age sixteen. She continued to go to school while working a fulltime job. Initially, couch surfing with friends and then finally securing a little studio apartment of her own. While going through school she took odd jobs as cashier, receptionist, elementary school program TA, and administrative assistant moving up the corporate ladder she has been the recipient of National Association of Professional Women Outstanding Excellence & Dedication to Her Profession And The Achievement of Women Award and is is now Operations Manager for her current employer, is a Public

Notary Signing Agent and though she considered modeling at a young age she finally checked it of her list at age 47!

Jenny enjoys volunteering specially with kids and did so for many years at her local Boys and Girls Club. Service to others has always brought a high level of satisfaction and she does as much as time allows. In her down time you can find her at the beach or the gym. Most of all Jenny enjoys time with her family. She has recently become a grandmother and is enjoying her role to the fullest. She hopes to continue to model and serve her community as much as possible. Her goal is to travel to as many countries as she can in the next decade.
